class descriptions

BEACH SPIN A unique beachfront spin class featuring a 45-min workout led by San Diego's best instructors through Beats by Dre headphones with invigorating tunes. Get your day off to a productive start. **(FEES APPLY)**

CORE CONDITIONING This class emphasizes the importance of overall core strength in not only the abdominals, but also the lower back, hips and glutes with quality exercises geared towards overall core strengthening.

CIRCUIT Several stations including resistance, balance and cardiovascular work, for a fun, high energy challenge that utilizes a variety of equipment, including free weights, resistance bands, exercise balls, jump ropes, spin bikes and medicine balls.

CIRCUIT/SPIN FUSION A vigorous workout of intense spin for cardio and circuit training to keep your heart rate up! Your instructor will transition you from bikes to alternative exercise equipment such as Bosus, balls, weights, bars, and TRX for an extreme, fun-filled workout.

FOAM ROLLING This manual therapy is aimed at relaxing, lengthening and ironing out muscles while improving blood flow and lymphatic circulation.

MERMAID FITNESS An exciting 45 minute water aerobics class fusing swimming, core, cardio, and strength training set to upbeat music in colorful mermaid tails! Tales are also available for men and all participants must wear proper swimwear underneath their tail. **(FEES APPLY)**

PIYO STRENGTH Increases flexibility, balance, core stability, agility and overall strength using Yoga and Pilates inspired movements and blends barefoot athletic training and stretch to burn calories and build muscle.

SPINNING A non-impact, individually paced, noncompetitive, group training system designed for all riders and fitness levels, using spinning bikes, music and visualization techniques. The ride will last 40-50 minutes followed by abdominal toning and stretching.

SUPER SPIN A dynamic workout of intense spin for cardio, and circuit training to keep your heart rate going. Your instructor will take you on a challenging stationary cycle class, and transition you into weights and resistance training for total toning.

TRX A suspension training workout of total body resistance exercises, incorporating gravity, body weight and angles to build and maintain muscle mass, core and flexibility. Equipment such as Bosu, bikes, bands, weights and balls may be included.

TRX/SPIN CARDIO FUSION This fast paced cardio class uses the spin bikes and the TRX in an interval workout that will have you jumping off the bike, onto the TRX and back on the bikes so fast, it will make your head spin. Don't worry, the abs will not be forgotten!

YOGA Yoga postures and breathing revitalizes the body physically, mentally and spiritually, increases muscle tone, improves flexibility and concentration, detoxifies vital organs and induces a state of deep relaxation.

YOGA STRETCH/FOR STRENGTH Yoga Stretch focuses on breath, muscle release and increased flexibility through gentle movement. Yoga for Strength increases flexibility while building and challenging strength that will definitely demand attention.

ZUMBA A high energy cardio workout that includes Latin and other international rhythms with easy to follow choreography such as Salsa, Merengue, Bellydance, Cumbia, and Hip Hop for any fitness level.

Reservations required for all classes; limited space available. Be mindful of those on the waiting lists. Cancellations must be made 4+ hours prior to class time or incur a \$10 fee for late cancellations/no shows. Please call Del Services (0) to make class reservations.

- Please arrive 5 minutes prior to start time. Due to limited space and wait lists, late arrivals will not be accommodated. We appreciate your thoughtfulness!
- All beach classes will meet at the Fitness Center
- Please remember to bring sunscreen and water
